

**NetSuite  
Starter Edition  
– ERP at a  
fixed price!\***

## Is it time for an ERP system? Explore NetSuite Starter Edition!

Are you considering a new ERP system or implementing one for the first time? Choosing the appropriate system is a critical decision, requiring alignment with your business objectives, a balanced total cost of ownership, and scalability to support future growth. At xperitus, we offer the ideal solution: NetSuite Starter Edition.

### What is NetSuite Starter Edition?

Based on thousands of successful implementations, NetSuite has developed Starter Edition. NetSuite Starter Edition is designed to help small and rapidly growing businesses manage all their critical business processes in a single, fully integrated ERP system. With Starter Edition, you get ready-made process solutions based on proven workflows, pre-configured automations, and functional user roles with predefined interfaces that include relevant reports and KPI's.

### Fast implementation at a fixed price

NetSuite Starter Edition is designed for rapid deployment, providing immediate value through a fully integrated platform for managing data and key processes.

xperitus implements NetSuite Starter Edition at a fixed price. Once the agreed deliverables are finalized, we aim to have you up and running within weeks, not months.

### \* Included in NetSuite Starter Edition
